## Facts at a Glance — B & L & C Class\*

*MetLife Financial Freedom Select (MFFS®) is a variable annuity developed by MetLife\*\* to provide a retirement savings vehicle for employees of public schools, colleges and universities, nonprofit hospitals and nonprofit organizations under IRC §501(c)(3). A variable annuity is a contract/certificate between an employee and a life insurance company where, in exchange for your purchase payments, the insurer agrees to pay out a lump sum or a stream of retirement income at a later date. Certain provisions may vary by state.*

### Minimum contribution

None.

*Note: If no purchase payments are made for more than 24 months and the account balance is under \$2,000, MetLife may cancel the contract/certificate, if permitted by law, by paying the account balance less any outstanding loans (if loans are permitted by plan).*

### Transfers among funding options

Currently free and unlimited. Non-taxable. Other restrictions may apply.<sup>1</sup>

### Automated investment strategies<sup>2</sup>

The Equity Generator<sup>®2</sup>  
The Rebalancer<sup>®</sup>  
The Index Selector<sup>®3</sup>  
The Allocator<sup>SM2</sup>

### 3% rollover distribution and direct transfer credit<sup>1</sup> (B and L classes only)

Eligible transfers in the first two employee years receive a bonus of 3% of the transfer. Generally, it is unavailable if assets are from other MetLife or MetLife affiliates' products<sup>4</sup> or if you are over age 65 on the issue date. If any amounts are withdrawn prematurely, either a portion or the entire transfer bonus will be forfeited. Eligible rollover and transfer bonus must remain in the Fixed Interest Account for five years. Other restrictions may apply.<sup>1</sup>

### Death benefit

Assuming income has not started, the standard death benefit is the greater of:

- Account balance;
- Total purchase payments reduced proportionately for withdrawals (including any applicable withdrawal charges);

In each case, the amount is reduced by any outstanding loans, where loans are permitted by plan.

### Optional annual step-up death benefit\*\*\*

The greatest of: 1. Account balance; 2. Total purchase payments reduced proportionately for withdrawals (including any applicable withdrawal charges), or 3. "Highest Anniversary Value" on any contract/certificate anniversary prior to employee's 81<sup>st</sup> birthday plus any subsequent purchase payments and reduced proportionately for withdrawals (including any applicable withdrawal charges).

In each case the amount is reduced by any outstanding loans (if loans are permitted by plan). Must be elected at time of purchase and is irrevocable once selected.

### Minimum distribution service

The minimum distribution generally required each year once you reach age 72 or for qualified employer plans when you retire (provided the plan allows and you are not a 5% or more owner of your employer), whichever is later, by federal income tax rules, can be calculated and forwarded from MetLife Financial Freedom Select. Failure to take required minimum distributions for a year will generally result in a 50% penalty tax on the amount of the shortfall. MetLife will calculate the required minimum distribution for this annuity contract/certificate based on information provided and for this annuity contract/certificate only. If the participant opts in, we will remit the required minimum distribution to the participant in installment frequencies elected by the participant. May not be available in all markets.

### Loan provision

The amount that may be borrowed, the interest rate charged, the loan repayment schedules and loan application fees are described in the loan application form and the contract/certificate (Tax Sheltered Annuity (TSA) only). Loan availability and terms may be subject to the provisions of the employer's plan.

1. Please see prospectus for more details.
2. No investment strategy can guarantee a profit or protect against a loss. Only one investment strategy may be in effect at a time. The Equity Generator and The Allocator are dollar cost averaging strategies that involve continuous investment in securities regardless of fluctuating price levels. Participants should consider their ability to continue purchases through periods of low price levels.
3. Direct investment into an index is not possible. Certain models in this strategy may be more volatile than other MetLife Automated Investment Strategies. We will continue to implement the Index Selector strategy using the percentage allocations of the model that have been in effect. These percentage allocations will not change. You should consider whether it is appropriate for you to continue this strategy over time if their risk tolerance, time horizon, or financial situation changes. The asset allocation models used in the Index Selector strategy may change from time to time.
4. In Connecticut, bonus also applicable for internal transfers.
5. Ordinary income taxes apply to withdrawals. Withdrawal charges may also apply. Federal income tax rules, with certain exceptions, prohibit withdrawals before age 59½ from a TSA annuity. Some exceptions apply. Where pre-59½ withdrawals are allowed, a 10% federal income tax penalty may apply in addition to ordinary income tax. Consult with a tax advisor to determine whether an exception to these tax rules may apply.

Like most annuity contracts/certificates, MetLife's contracts/certificates contain charges, limitations, exclusions, holding periods, termination provisions and terms for keeping them in force.

MetLife and/or its affiliates ("MetLife") receive fees for providing administrative and recordkeeping services. The fees may be deducted directly from the Participant's account, be paid for by the Employer, be paid from the Plan assets and/or paid from the fees deducted from Participant account values allocated to the mutual funds available under the Plan. The fees can vary based upon the mutual funds that are available in the Plan and Plan Participants' asset allocations. Because different mutual funds pay different rates of compensation and rates of mutual fund compensation are subject to change from time to time, compensation received by MetLife varies based on the rates of compensation in effect from time to time. MetLife may receive a finder's fee from certain fund companies, which is additional compensation to MetLife. MetLife may also impose separate transactional fees for certain Participant elected transactions that will be charged directly to Plan Participants unless paid by the Employer or the Plan. MetLife may increase the annual administrative service fee charged to Participants' accounts. MetLife may also pay a portion of the fees it collects to an entity that is designated as a directed trustee or directed custodian of the Plan; or to a third party administrator, or third party investment advisor. MetLife may receive payments for administrative services provided under the third party investment advisory services. MetLife also receives compensation for administrative services on annuities that are issued by unaffiliated insurance companies. MetLife also receives fees with respect to annuities it issues, according to the terms of the annuity contracts and prospectuses, if applicable. If you would like more information on the compensation that MetLife receives, contact your Employer. MetLife may realize a profit from any of the fees described above.

If you are buying a variable annuity to fund a qualified retirement plan or IRA, you should do so for the variable annuity's features and benefits other than tax deferral. In such cases, tax deferral is not an additional benefit of the variable annuity. References throughout this material to tax advantages, such as tax deferral and tax-free transfers, are subject to this consideration.

Any discussion of taxes is for general informational purposes only, does not purport to be complete or cover every situation, and should not be construed as legal, tax or accounting advice. Clients should confer with their qualified legal, tax and accounting advisors as appropriate.

Ordinary income taxes generally apply at withdrawal. Withdrawal charges may also apply. Withdrawals will reduce the living benefit, death benefit and account value. Withdrawals prior to age 59½ from a TSA (before separation of service) are generally prohibited. Where allowed, a 10% federal income tax penalty generally applies, in addition to ordinary income taxes. Consult with your tax advisor to determine whether an exception to these tax rules may apply.
